

Product Datasheet

771r Info Module

The 771r Info module is designed to show a remote user the status of individual partitions on the Homelink 75 alarm system. A built in sounder gives setting and unsetting tones, as well as acting as an internal siren during an alarm.

Technical Specification

| | |
|------------------------|-----------------------------------|
| Environmental Class: | II |
| Operating temperature: | -10° to +55°C |
| Dimensions: | 121 x 121 x 40mm (wxhxd) |
| Weight: | 0.20 kg |
| Conforms to: | EN 300 220 3 |
| DC power supply: | 9 - 14VDC, 12VDC typical |
| Current consumption: | 55±5%mA quiescent, 600mA in alarm |
