Scantronic

The flexible approach to your home security

COOPER Safety

i-on16 wireless home security system

The Scantronic i-on16 wireless home security system provides reassurance for people like you, people with lots to protect and busy lives to lead.

Whether you're home or away, i-on16 fits into your life perfectly. Stylish looks combined with versatility and ease of use, providing uncompromised protection for your home.

Think i-on16 for advanced wireless security from one of the world's largest and most experienced manufacturers of security systems for homes and families like yours.

The i-on16 system can offer you the following different levels of installation:

Basic (Audible)
A PIR and door contact system that alerts from sounders positioned on the inside and outside of your property

Advanced (Speech Dialler)
Additional protection from shock sensors for property windows, an additional keypad and the added benefit of dialling up to 4 phone numbers with 4 different messages (e.g. fire or intruder)

Complete (Monitored)
As Advanced but also contacts a dedicated receiving centre for guaranteed professional response. The receiving centre will contact your nominated keyholders or send a guard to your property.
